2022-2023

[Fall 2022]

14.10.2022

room 454A
Building Condorcet

Patrice Bertet (SPEC CEA Saclay)

"Single spin magnetic resonance by microwave fluorescence detection"

Simon Apers (CNRS, IRIF, Université Paris Cité)

"Developments in quantum algorithms"

21.10.2022

room 454A
Building Condorcet

28.10.2022

room 454A
Building Condorcet

Thierry Lahaye (Laboratoire Charles Fabry, Institut d'Optique, CNRS et Université Paris-Saclay)

"Quantum simulation and quantum computing with arrays of single Rydberg atoms"

Roberto Osellame (Politecnico di Milano, CNR-IFN)

"Integrated quantum photonics, a powerful platform for quantum technologies"

02.12.2022
