

Quantum Technologies
GRADUATE SCHOOL

QUANTECH SEMINARS

2024 OCTOBER
NOVEMBER
DECEMBER

12H15 - 13H15
(FOLLOWED BY A
BUFFET)

Condorcet Building

10 October

Room 454 A

Thierry Debuisschert, research engineer
THALES

«Quantum sensors with ensembles of NV centers in diamond»

17 October

Room 454 A

Virginia D'Auria, professor-researcher
Université Côte d'Azur

«Multimode quantum states out of Silicon microresonators»

28 November

Room 454 A

Anthony Leverrier, researcher
INRIA

«Correcting errors for quantum computers»

05 December

Amphi PGG

Franck Balestro, professor
Université Grenoble Alpes

«Single Molecular Magnet, qudits for quantum algorithm»
